OCR workflow

Future Work

CS 492
Kaavish

1. Agentic Communication

- Improve response latency, Handle more edge cases and improve conversation flows

2. Algorithms

- Slot allocation (fair, no double-booking), player matching (graph-based matching, max-flow, stable matching), ranking (Elo/Glicko with opponent strength + recency), recommendations (link prediction, collaborative filtering).

3. Enhance social features

- Match-making, forum posting, Chatting

4. Re-integrate with Whatsapp

- Previous test number expired

5. UI/UX fixes and improvements

- Improve navigation flow, loading states, responsiveness, accessibility support, and vendor–user interaction design.

Thank you.

Please ask questions.
